

VOXLOG[®]

suite

**AUDIO RECORDING
SOLUTION**

—for courts and hearings—

Save time

Reduce the time spent on the minutes and improve your accuracy during transcription.

Annotate at any time

Take notes during and after the recordings to add comments or references.

Increase your productivity

Record from a desktop or a laptop. Through a search and playback web interface, audio files will be accessible at any time and place.

Quick search

Quick and easy search for audio files using a precise time reference, even while a recording is in progress.

DIGITAL AUDIO RECORDING SOFTWARE FOR COURTS AND HEARINGS

Voxlog Suite is a voice recording software designed to adapt to different markets, including court, administrative and municipal courts and hearings.

Capture your hearings, add annotations, secure and control access, integrate your hearing roll, search and listen to audio files.

Easy to use, Voxlog Suite will help you optimize performance, improve operational efficiency and document your decisions especially.

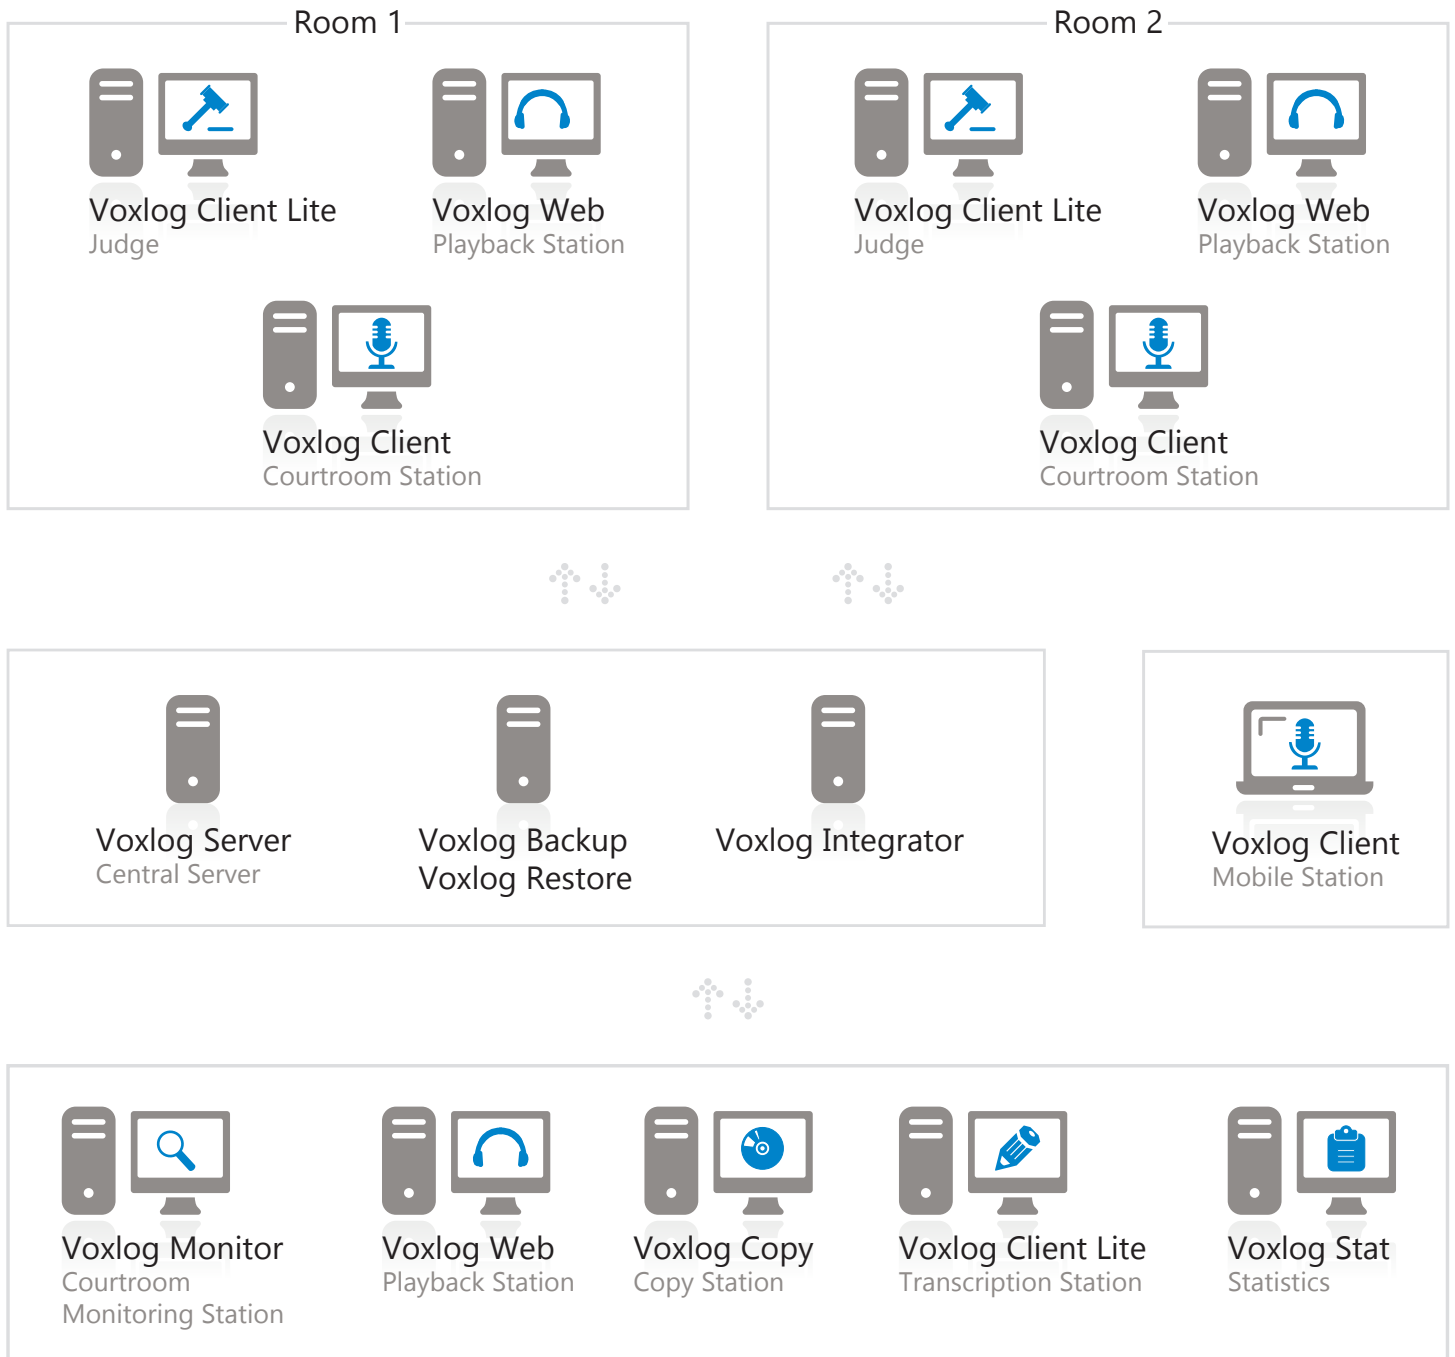

Document your decisions

VOXLOG SUITE CONFIGURATION

Should you need audio capture for one or thousands rooms, located in one or many buildings, connected through a local or wide area network, or even for a mobile recording, Voxlog Suite is your solution of choice.

INCLUDED SOFTWARE IN VOXLOG SUITE

VOXLOG® client

Execute a complete audio capture with a combination of information including hearing roll data and annotations.

- ✓ Record, search and listen
- ✓ Numerous alarm and restriction levels
- ✓ Allows audio capture in a fixed room or on the road
- ✓ Easy to use, complete and accurate: Requires minimal training
- ✓ Foot pedal support
- ✓ General annotations can be managed from any computer

VOXLOG® copy

Digital copying including annotations of one or more hearings for your customers.

- ✓ Make complete or partial copies
- ✓ Listening software included
- ✓ Billing module
- ✓ Allows copy on CD/DVD, USB or other digital formats

VOXLOG® client lite

Search and listen to audio files as well as give the same permission to a large group of users of your organization.

- ✓ Add, remove and correct annotations with administrative rights
- ✓ Available from your desktop or laptop
- ✓ Listen to your voice recordings at the right time and privately

VOXLOG® server

Secure, stable and reliable communication between Voxlog Client, Voxlog Client Lite, Voxlog Copy and the database (DB) where the data is stored.

- ✓ Secures all authentication and information search
- ✓ Simple approach; licenses can be replaced or moved
- ✓ Numerous databases supported

INCLUDED SOFTWARE IN VOXLOG SUITE

VOXLOG[®] stat

Through 6 reports, give yourself a complete view of the physical room uses versus their availability, number and files duration and more.

- ✓ Allows an analysis of the resources use in a hearing environment
- ✓ Gives an accurate picture of the use of hearing rooms
- ✓ Allows better human, physical and budgetary management

VOXLOG[®] player

Voxlog Player is a utility software that facilitates the playback of your hearings.

- ✓ Does not require any download or installation
- ✓ Direct access to the annotations of court clerks associated with the case

VOXLOG[®] integrator

For each case heard, Voxlog Integrator enables the integration of roll for hearing information into the Voxlog solution.

- ✓ Simple and efficient docket of the day integration
- ✓ Adds information to the case file and makes the minutes more comprehensive
- ✓ Facilitates the search for case files

VOXLOG[®] monitor

Monitor the status of your courtrooms in real time.

- ✓ Indicates the status (recording, paused, stopped) of each court room in real time
- ✓ View the status of your courtrooms without going anywhere
